EDUCATION

Syracuse University

Master of Science in Computer Science (GPA: 3.6)

Syracuse, USA

May 2025

Courses: Object Oriented Design, Design and Analysis of Algorithms, Computer Architecture, IOS Programming

University of Mumbai

Bachelor of Engineering in Information Technology (GPA: 3.7)

Mumbai, India

June 2023

Courses: Data Structures, Database Management, Frontend Development, Operating Systems, Data Science

EXPERIENCE

Capria Ventures LLC

Seattle, USA

Software Engineer Intern

Jun 2024 – Aug 2024

- Enhanced 'DD BOT', a GPT-4 chatbot, by integrating Gemini, Claude and Llama LLMs using RAG architecture, enabling comparative analysis of performance, cost, and response time, leading to a 5% improvement in accuracy and 8% cost savings.
- Developed a RAG-based chatbot integration with WhatsApp, allowing investors to seamlessly query Capria-related information, such as legal documentation and past fund performance, using Weaviate for efficient data retrieval, resulting in a 6% increase in user engagement.

MeetMeFit Pvt Ltd

Mumbai, India

Software Engineer Intern

Oct 2020 – Jan 2022

- Developed a scalable, distributed, low-latency web application using ReactJS, Firebase, AWS and deployed it to production, increasing traffic by 5K+ clicks over a weekly window.
- Built the foundational user management application and exposed it as a tool to cross-functional teams, improving promotional campaign and user management efficiency by 40%.
- Engineered account verification, suspension, and banning features, enhancing user control, and contributing to an 80% reduction in fraudulent activities.
- Led a team of 25 interns in the company's Campus Ambassador Program, conducted onboarding sessions, and coordinated tasks, improving the team's time-to-market value by 5%.

Reliance JIO Platforms Ltd

Mumbai, India

Software Engineer Intern

Jun 2021 – Jul 2021

- Collaborated with the UI/UX and the Development team to rebrand the product interface of the client application, using Angular JS and TypeScript, achieving a 4% improvement in application usability.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, Typescript, HTML, CSS

Frameworks: React, Bootstrap, Spring Boot, Tailwind CSS, Redux, jQuery, Next JS, Express, Angular

Databases: PostgreSQL, Firebase, MongoDB

Tools: AWS, Docker, Kubernetes, Node JS, Git, Postman, REST API

PROJECTS

Cloud-based Inventory Management System (AWS, Docker, MERN)

Fall 2023

- Constructed a fully integrated Inventory Management System; reduced inventory discrepancies by implementing real-time tracking for 500 products. Technologies: MERN, AWS, Docker.

Chat App (Web Sockets)

Spring 2023

- Manufactured a real-time chat application featuring user authentication, connect/disconnect notifications, and image transfer support. Technologies: React.JS, Node.JS, Socket.io, Firebase.

Coin Market Cap (Blockchain, Smart contracts)

Spring 2022

- Fabricated a Web 3.0 Blockchain application which provides users with a wide variety of cryptocurrency and NFT-related features. Technologies: Moralis, Solidity, Next.JS, Netlify, Bootstrap.
